

DOG

PET CARE TIPS

CAT

IDENTIFICATION Outfit your dog with a collar and ID tag that includes your name, address, and telephone number. It should not be tight; two fingers should slip easily under the collar. Have your dog microchipped by your vet to ensure that your dog will be returned to you, even if his collar came off.

OFF PROPERTY, ON LEASH Your dog should never be allowed to roam outside of your home or fenced yard.

PROPER PROTECTION A fenced yard with a doghouse is a bonus; however, dogs should never be left outside alone or for extended periods of time.

SPAY OR NEUTER Your pet will live longer, be healthier, and have fewer behavior problems, by spaying or neutering. And you'll help reduce overpopulation.

HEALTHY DIET Provide a balanced diet, including 24/7 access to fresh water. Ask your vet what and how often to feed your dog. Dietary needs change as dogs get older, and a dog's teeth should be cleaned and monitored regularly to ensure he can eat properly.

ENROLL IN A TRAINING CLASS Positive training allows you to control behavior safely and humanely, and enhances the bond you share.

GET ACTIVE Give your dog enough exercise to keep him physically fit, but not exhausted. Most dog owners combine playing with their canine companion and walking him twice a day.

Be loyal to and patient with your faithful dog and he will reward you with years of love and companionship!

SAFETY FIRST Keep your cat indoors, confined to your property or walked on a harness and leash. Always use a cat carrier when transporting. Secure your window screens and keep drawers, closets, and cupboards and the washer and dryer closed.

COLLAR AND ID Outfit your cat with a breakaway collar and ID with your name, address, and phone number.

SPAY OR NEUTER YOUR CAT This will keep him healthier and help decrease the number of cats put down every year due to overpopulation.

MEAL TIME Feed your cat a balanced diet and provide fresh water 24/7. Know your cat's nutritional needs, or ask your vet.

A CLEAN LITTER BOX Cats are naturally fastidious, and will instinctively use a litter box; just show yours where it is. Scoop the box at least once daily and periodically wash it with dish liquid and hot water.

GROOMING Cats should be brushed regularly to keep their coats and skin healthy, prevent matting, and reduce shedding and hairballs. Clip their claws to keep them from growing into their paw.

TRAINING With repeated, gentle and consistent training, your cat will learn the house rules. Use a squirt gun, whistle, or other noisemaking device to startle.

PLAYTIME Regular play sessions will provide physical and mental stimulation and strengthen your bond. Toys, scratching posts and cat grass distract cats from your belongings. Provide a comfortable window perch for when it's time to rest.

Cats are among the most popular housepets, giving years of love and enjoyment to their owners.

Apple Wood Self Storage LLC

Safety is Our #1 Goal™

Visit our Safety Education Page Our perspective on safety goes beyond the confines of storage. Working with City Police and Fire Departments we have authored a variety of safety messages for around the home and travel. To share those with those you care about, please visit our Safety and Education page online.
